5. [] LLM) At the request of Jack Ticer, Senate Armed Services Committee staff, reviewed in the Committee hearing room the 25 July 1973 transcript on Mr. Colby's confirmation and the answers supplied for the record for sanitization prior to submission to the printer. Ticer will call us when he gets the galley proofs and expects that complete hearings will be published in the next two to three weeks.

6. [] LLM) At her request, met with Kathy Nelson, in the office of Senator Stuart Symington (D., Mo.), who had some problems with the Agency's sanitization of Mr. Colby's testimony before the Senate Armed Services Committee on 27 June on S.1263, "United States Military Posture and Procurement for Fiscal Year 1974." Nelson claimed we had deleted monetary figures on Agency operations in Laos which had already been approved by the Agency for public release in the so-called Moose/Lowenstein report. She also claimed we were inconsistent in giving the force level of the SGU's but not the number of battalions involved. She had several other points and I agreed to have another review made of the material and let her know the results. [] has been advised.
